

The FCC should not implement any proposal that would lessen Indiana's Telephone Privacy law protections.

Indiana's Telephone Privacy law has improved our time at home.

This law has been an effective Indiana law. Where I used to receive several calls per week (12 or more), now I only receive one if that").

I would like to see that Indiana's laws be left alone. I think the states should have some say so in our laws. Please keep politics out of this.
